

This is to certify that

NGO TAN TAI

Top 2 – Python Project Track

This certificate recognizes the achievement of second place in the Python project category of the Dockerfile Contest 2025 organized by DevOps Vietnam. The submitted Dockerfile demonstrated strong technical quality consistent optimization well-structured layering and a practical approach to dependency management that set it apart from most other entries in the category. The result stands as a notable representation of reliable containerization practices within the context of the competition.
